Experience

Maxgen Technologies Pvt. Ltd.

Jan 2025 – March 2025

React Developer

- Developed and optimized dynamic user interfaces using **React.js**, enhancing performance and user experience.
- Integrated RESTful APIs and managed state using **React hooks** and **Redux** for efficient data handling.
- Implemented responsive designs with **Tailwind CSS** and **Material-UI**, ensuring cross-device compatibility.
- Collaborated with backend teams, ensuring seamless front-end and backend integration for enhanced functionality.

Skill Vertex

Feb 2023 – Apr 2023

Cyber Intern

- Conducted network security assessments and performed threat analysis to identify potential vulnerabilities.
- Applied encryption protocols and ethical hacking techniques to enhance secure systems architecture.
- Devised strategies for risk mitigation, ensuring the protection and integrity of digital assets in real-world scenarios.

Projects

Netflix Clone | React.js, TMDB API, Firebase, Axios, Swiper.js, Tailwind CSS

- Developed a fully interactive Netflix clone to enhance web development skills with modern technologies.
- Implemented user authentication with Firebase, allowing secure Sign In and Sign Up.
- Designed a responsive and engaging UI using Tailwind CSS and Swiper.js for smooth navigation.
- Optimized data fetching with Axios, ensuring seamless user experience and efficient API calls.

Ayurveda | Java, Kotlin, Android Studio, Figma, Firebase

- Conceived and produced a role-based Android application with distinct functionalities for admin, doctor, and patient roles, supported by a Firebase backend.
- Implemented key features such as appointment scheduling, online payments, and a store for Ayurvedic products, ensuring seamless user experiences.
- Developed secure user authentication and real-time database management, complemented by an intuitive UI designed in Figma.
